

Local Public Notice Announcements. (#17)

Local Public Notice Announcements. When someone files an application to build a new station or to renew, sell, or modify an existing station, we often require the applicant to make a series of local announcements to inform the public of the application's existence and nature. These announcements are either published in a local newspaper or made over the air on the station, and they are intended to give the public an opportunity to comment on the application. Copies of these announcements must be retained in the public inspection file.-THE PUBLIC AND BROADCASTING
