Section A (For broadcasters electing Option One).

On its analog channel, and its primary digital stream, a station must air three transition PSAs, and run three transition crawls, in every quarter of every day. Stations are required to air PSAs or crawls at various times in any given day part, and at least one PSA and one crawl per day must be run during primetime hours. On-air education must not contain inaccurate or misleading statements and must be provided in the same language as a majority of the programming carried by the station. PSAs must be at least 15 seconds, and closed-captioned. Crawls must run during programming for no fewer than 60 consecutive seconds across the bottom or top of the viewing area (See rules for additional details).

Have you aired a sufficient number of eligible PSAs (84 per week) during the correct quarters of the day?	<input checked="" type="radio"/> Yes <input type="radio"/> No
Have you aired a sufficient number of eligible crawls (84 per week) during the correct quarters of the day?	<input checked="" type="radio"/> Yes <input type="radio"/> No

Beginning April 1, 2009, Option One stations must also provide information about antenna use, the need for rescanning, and walk-in DTV help centers. These notices must be aired for no fewer than 15 seconds each, at least once per day, between 8 a.m. and 11:35 p.m., and at least three times per week between 8 p.m. and 11 p.m. in the Atlantic, Eastern and Pacific time zones, and between 7 p.m. and 10 p.m. in the Mountain, Central, and Alaskan time zones, until the station terminates analog programming, completes construction of its post-transition digital facility, and begins operation of that facility. The station may replace up to 25 percent of their daily PSAs and crawls with each type of notice (stations may choose alternative on-air methods to comply with these notice requirements, but if so they may not be counted toward the transition PSA/transition crawl obligations. See 47 C.F.R. § 73.674(b)(6)-(8) for additional details).
